Senior Project Proposal - Go...

36 KB

Hello, Professor.

We're team GoGitters and I'm Stephanie Nutter, our team leader; I'll be the point of contact for this team. Our recently approved project is the development of a phone application for a personal training business. I have attached the file to this Email; any feedback you could provide in terms of difficulties we might face in the course of development would be appreciated.

I am sending this Email today to schedule a lab appointment. Our team availabilities have been difficult to match up, but here are our proposed meeting times:

Thursday, 3:00pm, February 15th  
Thursday 3:30pm, February 15th  
Thursday, 3:00pm, February 8th

We may be able to make evening meetings on certain days, but we were unsure of availability for those. Thursdays around 3:00 seem to be the best time for meetings each sprint cycle for our team.

Thank you very much for your time.
